

OECD Broadband statistics [\[oecd.org/sti/ict/broadband\]](http://oecd.org/sti/ict/broadband)

5a. Average advertised broadband download speed, by country, kbit/s, Sept 2008

	Average advertised broadband download speed, kbit/s*	Number of offers used to calculate average
Japan	92 846	31
Korea	80 800	10
France	51 000	13
Finland	19 226	36
Netherlands	18 177	14
Germany	15 919	15
Australia	15 539	71
Denmark	14 633	20
Portugal	14 100	15
Iceland	13 693	34
New Zealand**	13 527	36
Norway	12 364	22
Sweden	12 297	27
Italy	11 939	8
United Kingdom	10 673	16
Czech Republic	10 468	9
Austria	10 292	15
Luxembourg	9 984	13
United States	9 641	24
Spain	9 631	24
Switzerland	7 946	13
Belgium	7 544	13
Greece	7 504	16
Slovak Republic	6 254	14

Canada	6 236	16
Ireland	6 201	21
Hungary	5 354	15
Poland	4 313	12
Turkey	3 338	26
Mexico	1 514	10
OECD	17 412	609

Note (*): Advertised speeds are typically the theoretical maximum for the employed technologies. Users commonly have lower speeds. Also, often only parts of country have been upgraded to allow for faster sp

Note (**): New Zealand's download speeds are not typically advertised. Figured were imputed using technological maximum speeds for ADSL 2+ offers.
